IMPORTANT: Applications received during this period will not be considered for on-campus housing.

1st tuition payment period: 29 April – 3 May 2024

2nd tuition payment period: 29 July – 2 August 2024

International Undergraduate Online Registration: TBA (expected to be end of September 2024)

Entry Qualifications

Koç University is a non-profit research university and maintains a highly **competitive and selective admissions process**. We are looking to admit the best and the brightest high school leavers across the world. Therefore, all past academic and personal information provided by the applicants is expected to point out their potential to attain academic excellence during their course of study.

Candidates are evaluated in a holistic manner taking into account their academic performance in high school, entry qualifications, extra-curricular activities, recommendation letters, and the motivation to join Koç University and one of our undergraduate programs.

To apply to Koç University as an international student, you need to **complete and submit an online application form**. You should not email or post any documents to the university during the application process.

In order to be qualified for an offer to study at Koç University, all applicants must meet the entry qualification requirements of their intended program(s) of study. Although SAT I is the most common one submitted by international applicants, we also recognize a wide range of other international and country-specific qualifications. As an international prospective student, please keep in mind that you are expected to provide all of the requirements listed below for a competitive application.

Application Timeline for Fall 2024

You will receive your admission and scholarship results around 4-6 weeks after submitting your online application.

There are no disadvantages to applying in the late application period with regards to receiving an offer of admission and scholarship, however, it is likely that you will not be eligible to apply for housing.

03.08.2024  Late Application Period Opens (Except Medicine)31.08.2024  Late Application Period Closes (Except Medicine)

1) Notes on Entry qualifications & Eligibility

Important Notes

If you have one of the eligible test scores or diplomas, but with scores below our minimum criteria, you will not be offered admission.

You can apply with your predicted IB or A-level scores issued by your school.

All standardized test scores (e.g., SAT, ACT, MCAT, AP, EGE, ENT, CBSE, CISCE, ATAR, ...) are valid for 2 years.

There is no time limitation on eligible diploma grades.

If your qualification allows for online verification, you must select Koç University as one of the score recipients. Otherwise, it will not be accepted as valid.

The minimum scores in the eligible entry qualifications list must be used as a guide only, and therefore, meeting them will not automatically guarantee an offer.

Applicants may be asked to provide additional qualifications and documents or sit for interviews if needed.

Please check carefully the document [here](#) if you have TRNC citizenship or acquired TC citizenship by birth. You are advised to refer to our [Registrar's website](#) for further guidance on your eligibility to apply as an international student.

If the documents or information required for registration are determined to be false or fraudulent, the student's relationship with the University will be terminated, and the student's registration will be canceled. In this case, the tuition fee paid is not refundable. Relevant students cannot request the continuation of their registration by providing new documents.
